## One Way Travel Form

Dear Parent or Guardian,

The Richland School District has adopted a one way busing policy when traveling inside of the city of Richland.

- This means we will provide one way transportation from your student-athletes school to the location of their game/activity within the city of Richland.
- Your student-athlete will not be transported back to their respective schools after the athletic contest.
- It will be the parents responsibility to make arrangements to have their child picked up at the game site and transported home at athletic contests in Richland.
- The coach will remain with the students until all athletes have left the campus. It is expected that parents would arrive at the sports activity before it is over.
- **Transportation by bus will be provided to and from all activities held outside of the city of Richland.**

**We appreciate your support.**

---

Please sign and return to your child's coach

I have read the information regarding the "drop only" policy for athletics events played inside of the city of Richland. I will make transportation arrangements for my child to be picked up from these events.
